

To Michael , Gerard and all at Neumode Design And Construction,

Thank you for helping us bring to reality our dream home. It has been an absolute pleasure to work with you all, from the original concept and design stage of our home , right through the building process and to completion. The attention to detail and care shown by you and your staff , along with all the trades involved through the building process, has been fantastic. We would not have ended up with this wonderful home, had it not been for your involvement from the original concept stage and through the entire process. The knowledge and advise provided by all was invaluable and contributed significantly to the end result.

Helen and I , will forever be grateful for your passion, commitment, attention to detail, quality of workmanship, pride and care. These were qualities were evident in all at Neumode and passed through to all trades that worked on our home. It has been a pleasure working with you all over the past couple of years and we would highly recommend Neumode to any prospective clients you may have in the future.

We look forward to keeping in touch over the coming years and wish you all the best, both on a personal and professional level.

Miro & Helen Sloup
